WORK EXPERIENCE

Senior Frontend Web3 Developer

RUBY Exchange, <https://ruby.exchange>

2022 - 09/2024

DEX platform for crypto trading on Ethereum blockchain

Achievements/Tasks

- Developed a Web UI of DEX platform for crypto trading using ReactJS
- Used Redux as state management, Tailwindcss and MUI for UI styling
- Tested the UI using Jest framework
- Interacted with smart contracts using ethers module

Lead Smart Contract Developer

MonoX, <https://monox.finance>

2020 - 2022

The objective of MonoX Protocol is to create a new design for capital inefficiencies caused by liquidity pairs, by using a single token pool model.

Achievements/Tasks

- Designed the smart contract structure and broke down based on the functions
- Developed the smart contracts by solidity and tested using hardhat
- Improved the security of the smart contracts
