

MIRNES FAZLIC

SENIOR SOFTWARE ENGINEER

+1 405 308 4337

mirnesfazlic75@gmail.com

Stockholm, Sweden

SKILLS

- Team Communication
- Problem Solving
- Project Management
- Creative Thinking
- Data Analysis
- Negotiation

TECHNOLOGY

- React
- Angular
- JavaScript
- Next.js
- TypeScript
- Java
- Spring Boot
- Web3.js
- Smart Contracts
- Tokenomics
- Solidity
- Node.js
- Azure
- RESTful API
- Mongo DB
- AWS
- Redux
- Agile / Scrum

EDUCATION

Bachelor's Degree | Computer Science

Nanyang Technological University

- GPA: 4.4 / 5.0

2013 - 2017

PROFILE

As a senior web developer seeking exciting opportunities with 7 years of experience in creating & building dynamic web applications. Proficient in frontend and backend development using frameworks like React, Angular & Spring Boot. Specialized in blockchain development and distributed applications. With my plenty of experience in smart contract development, DeFi protocols, token standards, NFT marketplaces, and secure wallet creation.

WORK EXPERIENCE

Lightenberg | San Diego, CA

2021 - 2024

Full Stack Engineer(Blockchain)

- Successfully integrated the front end of a decentralized application with the Ethereum blockchain using React.js and web3.js.
- Implemented features such as wallet connection, real-time transaction updates, and seamless interaction with smart contracts, resulting in a 25% increase in user retention.
- Designed and implemented token generating tool (Tokenator in Base network) including features like burning, renounce, adding and burning LP, team allocation, creator commission, increase supply, reduced costs by 40% using an Ethereum smart contract - proxy.
- Developed Dex site (Tifi in Binance network) including features swap and liquidity pool using truffle framework, solidity, PancakeSwap SDK.
- Closely collaborated with the product and dev teams to improve the efficiency of the platform by 25%.

Anradus Pte Ltd | Singapore

2017 - 2021

Full Stack developer

- Participated in the entire software development life cycle including design, development, testing and deployment.
- Collaborated with the support team to troubleshoot client issues, reducing 20% resolution time.
- Involved and interacted proactively in the daily meetings, planning, review and bug fixing.
- Designed and implemented user-friendly web applications, enhancing user interaction and driving customer engagement.
- Increased efficiency of development process by utilizing continuous integration tools and test automation frameworks.
- Fixed bugs and maintenance of project documentation.
